SUMMARY

Full-stack developer with hands-on experience building web applications using React.js, Next.js, Node.js, Express.js, and MongoDB. Skilled in developing RESTful APIs, implementing secure authentication, and building end-to-end applications with modern JavaScript technologies.

TECHNICAL SKILLS

Languages: Java, JavaScript
Frontend: HTML5, CSS3, React.js, Next.js, Redux Toolkit, Bootstrap
Backend: Node.js, Express.js, RESTful API Design
Databases: MongoDB, Mongoose, SQL
DevOps & CI/CD: Docker, GitHub Actions, CI/CD Pipelines
Tools & Platforms: Git, GitHub, VS Code, Vercel, Render, Postman

EDUCATION

City Engineering College <i>B.E., Computer Science and Engineering</i>	CGPA : 8.27 2023 - 2027
Vijaya Bifurcated Pre University College <i>II PUC, PCMC</i>	83.66% 2023
Martin Luther English School <i>Class X</i>	82.72% 2021

PROJECTS

Hotel Accommodation System

Tech Stack: HTML, CSS, JavaScript, Bootstrap, Node.js, Express.js, MongoDB, EJS, Passport.js, Cloudinary, Leaflet

- Developed a full-stack vacation rental booking platform using the **MVC** architecture, implementing secure user authentication and role-based authorization with Passport.js.
- Designed and implemented 10+ RESTful APIs for property listings, bookings, reviews, and user management, integrating Cloudinary for image storage and Leaflet for interactive location mapping.
- Modeled and managed application data using MongoDB and Mongoose, enabling efficient handling of property listings, bookings, and user sessions.

Version Control System

Tech Stack: React.js, Node.js, Express.js, MongoDB, Supabase Storage

- Developed a GitHub-inspired full-stack version control platform with secure user authentication, repository management, and cloud-based file storage.
- Engineered a custom Git-inspired version control engine supporting commit creation, push/pull synchronization, and version history tracking, replicating core Git workflows.
- Designed and integrated RESTful APIs with Supabase Storage for repository synchronization, enabling efficient file uploads, downloads, and version management.

Professional Networking Platform

Tech Stack: Next.js, React.js, Redux Toolkit, Node.js, Express.js, MongoDB

- Developed a full-stack professional networking platform with secure JWT-based authentication, user profile management, and connection request functionality.
- Integrated Multer for profile image uploads and PDFKit for dynamic resume generation, enabling users to download professional profile summaries.
- Designed and implemented **15+ RESTful APIs** using Express.js and MongoDB, leveraging Redux Toolkit for centralized state management and efficient client-server communication.

ACHIEVEMENTS

Qualified for the final round of **DevTrack** Hack/Sprint 2026 by securing a Top 10 position among 60+ participated teams.
